About Me

A Motivated individual with a creative mindset, passionate about learning, coding, and tackling new challenges. I am enthusiastic about acquiring new knowledge and skills to continuously grow.

Experience

Freelance (Sept 2025 - Mar 2026)

- Focused on database schema design and optimization to support high-traffic systems.
- Developed modern scalable, high-performance web applications using Django and Python.
- Implemented RESTful APIs using enabling integration with third-party services and mobile applications.

Django Developer (Internship)

Prixa Technology (Dec 2025 - Mar 2026)

- Developed and maintained content management systems using Django MVT architecture and template-based rendering.
- Integrated Ollama for local LLM-powered features in content workflows.
- Connected third-party payment APIs, Daraz Open APIs for e-commerce functionality.
- Implemented task queueing and message broker systems to handle asynchronous and background jobs.

Environment : Python Django, Tailwind CSS

Django Developer (Internship)

Cloco Nepal. (June 2024 - August 2025)

- Built responsive and reusable frontend components using React (TypeScript) and Tailwind CSS, Validation
- Developed RESTful APIs with Django REST Framework, secure API with JWT authentication
- Managed frontend-backend integration efficiently, ensuring smooth data flow and state management.
- Participated in code reviews, debugging, and optimization tasks to ensure high-performance output.
- Used Git for version control and collaborated with the team to refine the task

Environment : Python Django, React, Typescript, Next.js

Skills

Frontend: Javascript, React, Typescript, HTML, CSS, Bootstrap, JQuery, Thymeleaf

Backend: Python , Django, Java, Springboot, MySQL / PostgreSQL Database

Other: Git, Github, IntelliJ Idea, Vscode, Postman, Adobe Creative Suite, Figma

Soft Skills: Communication, Collaboration, Problem Solving.

Projects

Bill Splitting App (Paypasa) [\[link\]](#) (Django, Next.js)

- Designed UI using Figma, and developed responsive components with Typescript, Shadcn UI & Tailwind.
- Integrated a Django REST Framework API for managing User, Expenses, Split, Balance Calculation and Activity Logging.
- Expense Categorization based on Associated Groups.
- Implemented JWT authentication for secure user login and Axios for API calls.
- A web-based Bill Splitting system where friends can attached in group and monitor their expenses.

Environment: Figma, React(JavaScript), Tailwind CSS, APIs, Django Rest Framework, Git, Github

Blog App [\[link\]](#) (Python, Django)

- Developed a full-stack blog application using Django MVT with user authentication, post creation UI, and like functionality.
- Integrated Ollama locally for automatic AI-based post generation

Environment: Python, Django, Templates, Ollama (Local LLM), SQLite, HTML, CSS, Git, Github
